==

timed out : Call Home is not initiated, SSH Socket connection lost....

==

Error occured in line number 164

```
=======================================================================
   ############ SYSTEM LOGS #############
=======================================================================
```

Expected Result : TER NETCONF Client can change the value of the supervision timer in the supervision watchdog reset message. The O-RU NETCONF server must adjust the timer accordingly if this optional test is performed.

```
